What is the Program?

"Coming together is the beginning; keeping together is progress; working together is success"

Henry Ford

While an entrepreneur comes up with great ideas, (s)he cannot deliver on them ALONE. The entrepreneur needs a TEAM, which is not just a group of people but RIGHT people, with complementary skills, high levels of synergy and motivation, who TOGETHER convert great ideas into grand success. Many great entrepreneurial ventures fail due to overlooking this vital aspect.

The Program

A key challenge for entrepreneurs is building a cohesive and aligned team that works in harmony to achieve the vision. The program focuses on successfully navigating through the various challenges faced by entrepreneurs related to building high performing teams, at various stages of the venture.

The program enables the participants not only to build a one-time team but also covers aspects to make the teams self-sustainable. The program covers techniques of indentifying the right people, integrating them, building the right culture and taking care of few processes that makes teams self-sustaining and high performing.

Participants will get practical insights into their specific challenges related to building high performance teams. The program is designed to make a difference to your enterprise by effectively addressing your challenge of building high performing team.

Program Takeaways

- Understanding teaming challenges
- Gaining deep insights on attributes of high performing teams
- Practical insights into selecting right people
- Configuring a high performing team
- Assessment of your specific team challenges
- Assessing and building organizational culture
- Supporting processes for enabling high performing team
- Individual action planning for building high performing team

Who should attend?

The program has been designed to provide immense value to new, early and middle stage entrepreneurs. It will also be highly relevant to any entrepreneur facing team related challenges.

Companies that follow intrapreneurial philosophy and keen to improve the teaming and building high performing teams will also benefit.

Participants across industries (Pharma, Retail, Engineering, Banking, FMCG, etc) are welcome to participate and benefit.

The batch size will be restricted to only 30 for effective learning.

Duration

Two days
